Employment History

Jr Full Stack Developer
Vinivia AG| jun 2022 - present

I had build fully-fledged platforms using a range of different technologies. I've been involved in the entire product development lifecycle including the design, development, deployment and maintenance of new and existing features. Writed clean and functional code on the front- and back-end. Collaborated closely with our development team to ensure system consistency and to create a great user experience. Writed reusable and maintainable code. Optmized web design for mobile for maximum speed. Performed UI tests to optimize performance.
